Course Objectives

- SSMC™ is an advanced-level certification for professionals who are working as or are interested to work as Chief Scrum Masters, Program Scrum Masters, or Portfolio Scrum Masters.
- The objective of this certification is to confirm that the applicants have sufficient expertise to coordinate and facilitate the working of multiple Scrum Teams at projects, programs and portfolios levels.

Course Outcomes

- Students will readily recognize, define, and work with the concepts, advantages, and challenges of the Scrum Framework.
- Students will be prepared to play the role of Chief Scrum Master or Program Scrum Master or Portfolio Scrum Master in their organizations and help their organizations adopt the Scrum Framework. Furthermore, students will develop an understanding of the other roles in Scrum.
- Students will gain knowledge pertaining to and the ability to anticipate issues related to the practical implementation of Scrum.
- Students will be armed with the proper tools to address, resolve, and take the lead on Scrum issues in their organizations.
- Students will be provided access to an online exam. After passing the exam, each student's certificate will be mailed to him or her.

Course Methodology

- We promise a highly engaging course that ensures high retention of concepts and theories.
- Students are encouraged to work through the concepts rather than just listen to them—this provides better internalization and retention.
- Students work through a case study to simulate product development using the Scrum Framework.
